DISCLAIMER

This presentation is not, and under no circumstances is to be construed as, a prospectus, offering memorandum, or advertisement or a public offering of securities. Offers to sell, or the solicitations of offers to buy, any security can only be made through official offering documents that contain important information about risks, fees and expenses. Readers should conduct their own due diligence, not rely on the financial assumptions or estimates displayed in this presentation, and are encouraged to consult with a financial advisor, attorney, accountant, and any other professional that can assist with assessing the information. No securities commission or similar regulatory authority has recommended or approved any investment or the accuracy or completeness of any of the information or materials provided by the Company.

Certain information contained in this presentation constitutes "forward-looking statements" within the meaning of applicable securities laws which can be identified by the use of forward-looking terminology such as "may," "will," "positioned", "risk", "seek",

"should," "expect," "anticipate," "target," "project," "estimate," "intend," "outlook", "continue" or "believe," or the negatives thereof or other variations thereon or comparable terminology. Forward-looking statements include, but are not limited to, the Company's future revenues, the ability of the Company to obtain financing for the development of its projects, the Company's business plan and access to future funding and projects, the ability of the Company to repay its debts, the Company's financial forecasts, plans for expansion and increased distribution and sales, the ability of the Company to obtain, develop and foster its relationships with distributors and vendors, product development, the development of the Company's online platform, statements about potential market developments and trends, demand for the Company's products and services and other statements that are not historical facts.

Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management, are inherently subject to significant legal, business,

economic and competitive uncertainties and contingencies. Material assumptions supporting these forward-looking statements include, among other things: assumptions regarding the number of consumers and growth of the wellness market, the consumption by such users, and the price of the Company's products; that retail expansion will occur and result in greater branding and marketing opportunities, as well as increased sales volume and prices; that the Company will be able to obtain any necessary financing on acceptable terms, successful expansion to new markets and development of new products, successful operation of an online platform, and assumptions regarding our management team's ability to implement our business plan, and general economic and financial market conditions.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual financial results, performance or achievements to be materially different from the estimated future results, performance or achievements expressed or implied by those forward-

looking statements and the forward-looking statements are not guarantees of future performance. Such risks and uncertainties include but are not limited to, the fact that the Company is an early stage company with limited operating history and resources, execution of the Company's business plan requires raising additional capital, the wellness market is highly regulated and those regulations and enforcement priorities of governmental authorities may change, the wellness market is highly competitive, consumer attitudes may evolve and change, success is largely dependent on the performance of the Company's management, adverse changes in the global economy could negatively impact the Company's business, negative impact on the business due.

OUR MISSION

Promino Nutritional Sciences Inc. is the result of over 20 years of study to formulate **the most effective protein supplement on the market.**

Our **patented** and **clinically-proven** formula is shown to be **2X more effective than Whey Protein¹** at building muscle, even without exercise!

Our mission is to change how consumers think about muscle health to promote healthier, more active lifestyles. It's time to Rethink Protein.

MARKET TRENDS

- The growing demand for convenient products to support health and well-being on the go is driving the search for alternative beverages
- Consumers are actively seeking new options to help them reach their health goals
- Our products appeal to a broad demographic, reaching a wider range of consumers through various channels such as big-box retail, convenience and grocery stores, fitness centers, and vitamin specialty shops

A woman with blonde hair in a ponytail, wearing a blue tank top, and a man with a grey beard, wearing a black t-shirt, are running on a stone staircase outdoors. The woman is on the left, and the man is on the right. The background shows a modern building with stone walls and glass railings.

AN ESSENTIAL NEED

Up to 8% of Your Muscle Mass is Lost Per Decade After the Age of 30¹

- Termed sarcopenia, the rate of decline is even higher after the age of 60
- This involuntary loss of muscle mass, strength, and function is a fundamental contributor to disability in older people
- With Promino™, the consumer is limitless, whether building muscle for performance, or supplementing to decrease the effects of age-related muscle loss, our products are a simple solution, taken in the same way one would take a daily vitamin or a protein shake

OVER 20 YEARS IN THE MAKING

A Groundbreaking New Formula Proven by Science

The PROMINO™ patented, plant-based formula was developed at the University of Arkansas and is built upon over 20 years of research and 25 clinical trials to get the optimal ratio of nutrients to effectively stimulate muscle protein synthesis. MPS is essential for the repair and growth of muscle tissue.

In NIH Funding

“I believe that essential amino acids (EAAs) will become the most important nutritional supplements to impact human health and disease in the years to come. EAAs can provide unparalleled benefits in terms of muscle mass and strength.”

- Dr. Robert Wolfe, University of Arkansas

DISRUPTIVE SCIENCE

The Building Blocks of Life

When you eat protein, your body must first break it down to extract the 9 essential amino acids needed to repair and grow new muscle fibers. When taken as a supplement in the **proven, precise ratio** these free aminos are instantly absorbed into the bloodstream, without the digestive delay of conventional protein sources.

Amino acids are the building blocks of protein. The Promino™ patent provides **the perfect combination** of all 9 essential amino acids needed to unlock maximum muscle protein synthesis – even at rest!

THE HIGHEST QUALITY PROTEIN SOURCE IN THE WORLD

Protein Source	DIAAS (%)
PROMINO™ FORMULA	321
Milk (whole)	114
Egg (Hard Boiled)	113
Beef	112
Whey Protein Isolate	109
Soy	91

The Digestible Indispensable Amino Acid Score (DIAAS) is the new WHO adopted gold standard for measuring protein quality and ranks how a protein source is actually absorbed and utilized by the body. **Gram per gram, nothing is higher in protein quality than PROMINO™.**¹

2X More Effective Than Whey Protein at Triggering Muscle Protein Synthesis (MPS)²

1.DIAAS (Digestible Indispensable Amino Acid Score), World Health Organization
 2.David D. Church, et al. Department of Geriatrics, Donald W. Reynolds Institute on Aging, Center for Translational Research in Aging & Longevity, University of Arkansas for Medical Sciences, Little Rock, AR, USA & Paddon-Jones Det al. Exp Gerontol 2006; 41:215-219.
